PROFESSIONAL EXPERIENCE

Dash Technology INC Ahmedabad, Gujarat
Junior Software Engineer Feb 2025 – Present

- Built **6+ production modules** in **Laravel 10–13** (MVC, Eloquent ORM) with thin controllers and reusable logic for **50+ users**.
- Shipped **25+ secure REST APIs** with **JWT/OAuth2**, validation, pagination and rate limiting; documented in Swagger/Postman.
- Integrated **Keka** (employee data, leaves), **Jira** (worklogs) and **HubSpot** (projects, clients) via REST APIs with Scheduler/Queues, automating syncs for **50+ employees** and saving **~10 hrs/week** of manual entry.
- Reduced API response time by **35%** (800 to 520 ms) using MySQL indexing, query tuning and **Redis** caching; moved emails/reports to Queues.
- Wrote **PHPUnit** tests covering **70%+** of critical API flows; reviewed **50+ pull requests** in Agile sprints.

Intern Software Engineer Aug 2024 – Feb 2025

- Built Laravel internal tools and dashboards (Blade, Eloquent ORM); profiled slow pages, improving load time by **25%**.
- Implemented REST APIs and integrated **5+ third-party services** (payment, SMS, email) in two-week Agile sprints.

Mokshit Infotech Surat, Gujarat
ASP.NET Developer Intern Jan 2024 – Jul 2024

- Developed ASP.NET MVC modules with Repository Pattern and Entity Framework, cutting query time by **40%**.
- Prevented SQL injection through parameterized queries, input sanitization and output encoding.

PROJECTS

Dash-RMT – Resource Management Tool

Tech: Laravel, PHP, MVC, Eloquent ORM, RBAC, MySQL, Keka API, Jira API, HubSpot API, Queues

- Contributed to a resource-management tool used by **50+ employees** across **20+ active projects** (allocation, workload, reports).
- Integrated Keka (employee details, leaves), Jira (worklogs) and HubSpot (project, client details) for availability-aware allocation and logged-vs-allocated hour tracking.
- Built dynamic dashboards, real-time filters and RBAC; optimized queries, cutting report load time by **65%**.

QuickBite – Food & Essentials Ordering

Tech: Laravel, PHP 8, REST API, JWT, Passport (OAuth2), RBAC, Razorpay, MySQL, Redis, PHPUnit, Postman

- Built a REST backend (**40+ endpoints**) with JWT and RBAC for Admin, Customer and Delivery roles.
- Integrated **Razorpay**: order creation, signature verification, webhooks, refunds and idempotent updates, with **zero duplicate charges** across **100+ test transactions**.
- Added Passport (OAuth2) and **Redis** caching on catalog endpoints, cutting response time by **45%**.
- Designed a normalized MySQL schema for **300+ products** (categories, inventory, promotions).

PackFoodReady2Go – Food Packaging & Admin Panel System

Tech: ASP.NET MVC, C#, Razor Pages, Entity Framework, Repository Pattern

- Built an admin panel with the Repository Pattern, improving product-handling efficiency across **100+ SKUs**.
